

Seasearcher

# Get the complete view of the world fleet

Live. Connected. Trusted.

## Knowledge is power

You need to know what's going on in the maritime world. It's essential to mitigate risk, stay compliant, drive operational efficiency and grasp commercial opportunities. But cutting through the clutter to uncover the trustworthy data you need can seem like a daunting task.

## Seasearcher

The world's most comprehensive suite of tools for tracking and understanding seaborne trade.

Built on uncompromising data from Lloyd's List Intelligence, Seasearcher is an online suite of vessel intelligence tools, essential to everyone with a stake in the maritime industry. Save time, simplify your workflows, and base your decisions on a clear view with everything you need, from one trusted source.

# Get a clear view of risk

Stay compliant and have confidence in your partners, with a suite of tools specifically designed to help you spot and assess risk

## Complete compliance checks, quickly and simply

Automated compliance risk assessment tools simplify your workflow

## Avoid sanctions

Sanctions data and alerts keep you informed

## Know your customer

Company data helps you understand complex ownership structures

## Get an unbiased view of vessels

Risk indicators help you assess your exposure to risk

## Stay informed of casualties and incidents

Understand where and when they happen alongside arrests and detentions

## Monitor maritime trade and seize opportunities

Increase efficiency and act on clear insight with a comprehensive understanding of shipping patterns and real-time operations

### Identify supply and demand shifts

Global trade data helps you spot patterns and anticipate changes

### Know which vessels are where

Vessel movements data gives you a view of the global fleet

### Track containers

Simplify transshipment tracking with end-to-end downloadable data trails on containers

### Act quickly and stay ahead

Automated alerts inform you of relevant changes and keep you ahead of your competitors

# Set your strategic direction based on solid insight

Get context for your plans and decide where to focus your efforts with a clear view of the market and detailed customer knowledge

## Understand the shape and make-up of the global fleet

World fleet data helps you pinpoint opportunities

## Anticipate the effects of geopolitical events

Monitor how the industry is changing in unpredictable times

## Find out what your competitors are doing

Company fleet and activity data keeps you on the front foot

## Build cases on trustworthy data

Evidence vessel ownership and movements on reliable data from a single, trusted source

### Download case ready documentation

PDF reports support your investigations

### Present your cases with confidence

Verified vessel positions ensure you are working with accurate data

### Simplify complex ownership structures

Company data allows you to find what you need quickly

# Seasearcher for you

To help you harness its full power, Seasearcher is available with sector specific subscriptions. Each one has a specially selected group of features designed to solve your department's problems and make your workflows simpler, quicker and more rigorous.

## Seasearcher core tools

Built on uncompromising data from Lloyd's List Intelligence, Seasearcher is the vessel intelligence tool trusted by maritime professionals all over the world. Stay informed with live vessel movements data, ports and places data, tailored alerts, company ownership details and downloadable reports.

Seasearcher core tools form the foundation on which all of our tailored subscriptions are built.  
Seasearcher core tools include.

### Vessel positions

Verified data on a ship's location and port call history

### Vessel characteristics

Reliable information on a vessel's attributes

### Ports & places

First-hand intelligence and verified port callings

### Downloadable reports

Download and use for your internal due diligence processes

### Vessel lists and alerts

Monitor and stay informed of characteristic changes and movements in real time

### Companies & ownership

Understand complex ownership structures with up to 7 levels of ownership

### Ask the Analyst

Get researched answers to your questions from our experts

# Seasearcher Risk & Compliance

“We have found online access to Seasearcher an extremely valuable tool to ensure adherence to our sanctions and compliance responsibilities. Information is detailed, accurate, up-to-date and in an easy to use format. From our experience, it is much superior to other programmes available.”

## Trade Finance Analyst

London bank, operating in the African market

Our set of compliance risk detection features enable you to quickly spot and avoid potential risk. Complete due diligence and protect your organisation from the consequences of illicit activity with intelligent tools that go beyond the raw data and help you understand when a pattern or series of events should raise your suspicions.

Seasearcher Risk & Compliance includes

### Seasearcher core tools

Access essential maritime intelligence data (see page 7)

### Incidents and casualty reporting

Stay informed of casualties, seizures, arrests, inspections and detentions

### High risk port call indicators

Stay informed of vessel callings in high risk, Joint War Committee war risk areas or ECA zones

### Instant compliance risk indicators

Get an instant "big picture" indication of risk associated to a vessel

### Vessel timelines

Review interactive onscreen timelines with all key events and characteristic changes linked to a vessel

### Automated watchlists

Upload and screen vessels, companies and places automatically against your own lists

### AIS gap notifications and alerts

Detect AIS gaps and if they occur in high-risk locations

### Projected destination tracking

Get a clear indication of where a vessel may have travelled during 'dark' periods

### Ship to ship operations

Identify vessels that frequently pair with your vessel of interest

### Sanctions screening and alerts

A clear view of current and historic sanctions

### Casualty alerts

Monitor and track casualties globally

# Seasearcher Container Tracker

Simplify your checks and inform your decisions with clear knowledge of exactly where a container has been, even if it has transhipped on multiple vessels. Container tracker is a unique, on-demand solution that lets you access complete and verified container movement data. Get an end-to-end audit trail with exportable reports, all at the touch of a button.

## Seasearcher Container Tracker includes

### Seasearcher core tools

Access essential maritime intelligence data (see page 7)

### Bill of Lading and container number search

Find the container you need with worldwide coverage

### Transhipment reports

Track container transhipments on screen with easy to export reports

### Voyage outlines

Get onscreen maps of a container's journey

### Port callings data

Ascertain ports of load and discharge

### Downloadable reports

Evidence your findings

### Sanctions indicators\*

Understand if a vessel is linked to a sanctioned owner or company

### Transhipment query service\*

Get researched answers to your transhipment questions from an experienced team of maritime experts

### High risk port call indicators\*

Stay informed of vessel callings in high risk, Joint War Committee war risk areas or ECA zones

\*Available for an additional cost
